

A photograph of a minimalist dining set. A light-colored wooden table with a thick top and tapered legs is the central piece. On the table sits a simple, light-colored ceramic vase with a few olive branches, and two small, light-colored wooden elephant figurines. Four wooden chairs with dark brown upholstered seats and backs are tucked under the table. The background is a plain, light color.

At the heart of Vollwert Concept is our family's bond—a bond that spans decades of experience and love for the craft. My father's workshop in Turkey continues to be the backbone of our production, while we, the next generation, bring new ideas and designs to life.

We create furniture that's more than just functional—it's a part of our family's story, designed to be a part of yours. Vollwert Concept offers tables, chairs, and home office furniture that are not only stylish but also infused with the quality and care of a family tradition.

WHO WE ARE

*Where family
craft meets
timeless design.*

Vollwert Concept was born in Vienna, where I sought to blend the city's vibrant elegance with my father's legacy of expert craftsmanship in Turkey.

Surrounded by the art of furniture making in his successful workshop, I was inspired to create a brand that fuses Vienna's sophistication with the timeless quality of Turkish craftsmanship.

My sister plays a key role in our journey. She oversees operations and production in Turkey, ensuring that every piece meets the high standards we have set.

Her dedication and expertise keep our vision alive, blending the best of our heritage with the demands of today's market.

CHAIRS

Chairs crafted for comfort,
designed for life.

Lumiere

Hornbeam

54 x 80 x 60 cm
